

The US Business Leadership Network[®] (USBLN[®]) is the national disability organization that serves as the collective voice of over 60 Business Leadership Network affiliates across North America, representing over 5,000 employers.

Join us today in building workplaces, marketplaces and supply chains where people with disabilities can realize their full potential and be respected for their talents, economic self-sufficiency and entrepreneurship.

Annual Conference. The USBLN[®] Annual Conference is the preeminent national business-to-business event that brings together corporate, government, disability-owned businesses and BLN affiliates that have an interest in hiring employees with disabilities, marketing to consumers with disabilities and contracting with disability-owned businesses including service-disabled veterans.

Disability Supplier Diversity Program[®] (DSDP). The USBLN[®] Disability Supplier Diversity Program[®] is the nation's leading third-party certifier of disability-owned business enterprises (DOBEs), including companies owned by service-disabled veterans. The DSDP serves in an advocacy and certification role—linking disability-owned businesses to information, resources and contract opportunities with Corporate America, government and other buying organizations.

The TOWER[™] Initiative. The USBLN[®] TOWER Initiative (Tools on Work and Employment Readiness) is the link between emerging talent and businesses committed to disability diversity.

Corporate Membership. Unlike many other national organizations, corporate membership in the USBLN[®] is extremely affordable and allows our partners to play a vital role in national programs designed to maximize disability diversity inclusion.

BLN Affiliates. Establish a local or state organization through a lead business to carry out the mission of the USBLN[®] to build workplaces, marketplaces and supply chains where people with disabilities rightfully belong.
